

CBP
Challenge Brick Paving

Capability Statement

Brick Paving Services (Western Australia)

With over 35 years of continuous operation, our brick paving business brings unmatched experience, reliability, and workmanship to commercial, civil, and residential projects across Western Australia. Our long-standing presence in the industry is built on consistent delivery, proven performance, and an unwavering commitment to quality.

Our Experience & Team

Our personnel hold more than 60 years of combined experience in commercial brick paving throughout the Perth region. This depth of expertise ensures every project is approached with practical knowledge, technical proficiency, and a strong understanding of local standards, conditions, and expectations.

Past Projects

We have successfully completed a wide range of works, including:

- Commercial developments
- Civil works and public infrastructure
- Large-scale residential estates
- Industrial facilities
- Footpaths, crossovers, carparks, hardstands and pedestrian areas

Our long-term relationships with builders, councils, and civil contractors demonstrate our ability to consistently deliver safe, compliant, and durable paving outcomes.

Unique Capabilities

We invest in specialised machinery that sets us apart from many other brick paving contractors in Western Australia. Our fleet includes:

- Vacuum lifting machine – enabling safer, faster, and more efficient placement of large-format pavers and high-volume blocks.
- Skid steer loader – providing flexibility and speed for site preparation, material handling, and bulk movement.
- Mechanical laying machine – increasing productivity and ensuring uniformity for large commercial and civil paving areas.

These assets allow us to complete high-volume projects more efficiently, with reduced manual handling, improved safety, and superior consistency.

Why Choose Us?

- **Over 35 years in business, demonstrating long-term stability and proven capability**
- **Highly experienced personnel with significant commercial paving expertise**
- **Specialised equipment that enhances speed, safety, and quality**
- **Strong track record with commercial, industrial, and civil clients**
- **Commitment to reliability, workmanship, and client satisfaction**

We welcome the opportunity to support your upcoming projects and provide a high-quality, dependable paving service tailored to your requirements.
